

December 13, 2010

I had the great opportunity to work with Dre-Max Construction Inc. on our 99,000 sqft Glastonbury Mews 4 story wood frame care building in Edmonton Alberta. They are great company to work with, their professionalism on site and the problem solving and how they are able to look well ahead on the project; they were able to attain the schedule that was set out at the beginning of the project. Their ability to also to work with the other trades on site is exceptional.

I would defiantly work with them again and personally recommend Dre-Max Construction for any size of project.

Yours Truly,
