April 28, 2010

I had the pleasant opportunity to work with Dremax Construction Inc. on our 125,700 sq ft 4 storey wood frame apartment buildings in Fort McMurray. They conducted the correct procedures to attain the aggressive schedule that was set at the initial stages of the job.

While progressing in the job they showed their ability of reading and comprehending the Structural/Architectural drawings; while coordinating with other trades to minimize conflicts.

I would personally recommend Dremax Construction for multi-family projects due to their manpower, ability to meet timelines, etc.

Yours Truly,

A handwritten signature in blue ink, appearing to read 'T. Megarity', is written over a large, faint watermark of the 'CB' logo.
